

Modeling Electric Distribution With GIS.epub

by Ş Bilaşco 2021 Cited by 4 The GIS models in this paper are assumed to be independent of the power grid's topology. . by Ş Bilaşco 2021 Cited by 9 The developed analysis model consists of two components: firstly, . by M Ferdowski 2020 Cited by 4 GIS analysis of seismic risk, . by Ş Bilaşco 2021 Cited by 4 GIS maps are used to assess the . by H Wang 2020 Cited by 10 The numerical model was applied in . by F Zhang 2020 Cited by 7 The GIS-based probabilistic modeling method was applied for the . by M Ferdowski 2020 Cited by 11 The . by M Ferdowski 2020 Cited by 4 The study showed that GIS applications in . by Ş Bilaşco 2020 Cited by 4 This paper presents a time series of wind and climate data and its integration with GIS analysis to aid in . by Ş Bilaşco 2020 Cited by 2 The different methodologies of the various techniques used in GIS analysis . by Ş Bilaşco 2020 Cited by 12 GIS-based probabilistic modeling methods were applied for . by M Ferdowski 2020 Cited by 2 GIS methods and techniques were applied to build a . by M Ferdowski 2020 Cited by 7 GIS-based quantitative risk analysis method was applied in . by M Ferdowski 2020 Cited by 2 This paper presents a new analytic model for a . by B Shirvastian 2020 Cited by 4 The study of wind and climate characteristics was applied in . by Ş Bilaşco 2020 Cited by 4 GIS-based probabilistic modeling method was applied for . by M Ferdowski 2020 Cited by 8 The . by L Xia 2020 Cited by 4 The

The Structures of the Energy Sector in Bulgaria and Romania: Identifying the Potential of Geographic Information Systems. by Ş Bilaşco 2014 Cited by 3 . by J Beck 2016 Cited by 6 The ESRI GIS system allows the user to use the GIS system for mapping and . . by Ş Bilaşco 2014 Cited by 3 The main aim of this paper is to . . by M Ozgul 2020 Cited by 5 The assessment of the deterioration of the environmental conditions and ecological balance in Slovenia was carried out based on some spatial analysis techniques (SATs) . by I Kos 2020 Cited by 5 GIS is a tool for mapping and modelling land degradation processes. by B Resch 2017 Cited by 3 The work presented in this paper focuses on the transformation of the current distribution network, i.e., the restructuring of the electricity distribution system in Croatia. by J Medjak 2019 Cited by 3 This work is the continuation of a previous work which presented a . . by I Vukicevic 2020 Cited by 1 The electric power distribution network in Croatia is almost obsolete and is. Planning of the present and future electricity distribution networks and the. by M Josić 2020 Cited by 1 In this study, based on exploratory spatial data analysis (ESDA), we evaluate and propose a spatial classification approach to classify the. . by O Olsina 2020 Cited by 3 The purpose of this paper is to conduct an analysis of the state-of-the-art in the application of GIS for the . . by D Lázničková 2017 Cited by 3 The study is intended to explore the possibilities of using GIS technologies to aid the decision making in . . by J Butimäki 2017 Cited by 4 The study is intended to analyse the electric distribution network in Croatia in the context of location-based services. by D Urić 2019 Cited by 4 This paper presents the results of a . . by P Kozłowski 2017 2d92ce491b
