Description: this reseter will run only on windows XP, Windows 7 whit compatibility. A: Resetting your printer with the cable is not recommended. It will break the printer, you will most probably will not be able to fix it. This is true also if it is a laser printer, but to be honest I don't think it is. This article mentions that it is not recommended. And the documentations also mention it. EDIT: This video proves that it is 2d92ce491b
