July 30, 2563 B.C. Coub is YouTube for video loops. You can take any video, trim the best part, merge with other videos, add soundtrack. .. and still don't get what this app gives you. Coub is just cool. Unlike other apps we've seen on this site that don't give users anything more than "emoji", Coub gives you the ability to edit videos. Instead of cropping a video to make it social media-friendly, Coub gives you the ability to edit it - crop it, zoom in, add video, music, captions, and more. fffad4f19a
