iclass k9k9 hd pvr compact software,Q: Why isnt this css working properly I am trying
to change the color of an input with css but for some reason nothing is happening. I have
seen other answers that were answered about 4 years ago and I am wondering if the data
just isnt there anymore to answer them. Here is the link. I am pretty sure the file is saved
and saved the right place since it works fine on a different page. I have an input box and

```
my css is: input[type="text"], textarea{ background-color:#EEEEEE; } @-webkit-  
keyframes chooser{ 0%{ background: transparent; } 50%{ background: #333; } 100%{  
background: transparent; } @keyframes chooser{ 0%{ background: transparent; } 50%{  
background: #333; } 100%{ background: transparent; } } input[type="text"], textarea{  
background-color:#EEEEEE; } @-webkit-keyframes chooser{ 0%{ background:  
transparent; } 50%{ background: #333; } 100%{ background: transparent; }
