

## FREE LICENCE FOR S7 CAN OPENER

Hello PLC.ers. I'm using s7 canopener to open some secure code, but the program keeps asking for "user id". Perhaps it's because I'm missing some login permission procedure? The user ID is not needed unless you are using some form of authentication. In this case, you need to use your code in read-only mode. It's impossible? I am using the linux version. No, It is Impossible. You need to be authenticated (assuming it's not your admin account). I don't know how to authenticate with my code.
