
Cadence Allegro Extracta Exe Downloa

Most packaging manufacturers use Allegro tools to develop a pkg underlay and send an .mcm file. I would like to import an .mcm file into Ansys SIWave and run . mcm inside SIWave. I have a solution for this using the SIWave API, but the SIWave API does not provide a direct call to .mcm, so I have to manually create the .mcm file the .mcm file I would like to import into SIWave. This .mcm file should only contain one file per package. I want to create a .mcm file for just one package containing only one .mcm file that I can import into SIWave. I want to avoid creating a .mcm file for each package.
